

COVID-19 SPORT CAMP PROTOCOLS

The Richmond Olympic Oval is committed to providing a safe and healthy environment for all camp participants, parents and staff. A combination of measures developed by the British Columbian Recreation and Parks Association and approved by the Provincial Health Authority have been implemented to prevent the transmission of COVID-19. As per the Provincial Health Orders, we will adhere to the following principles:

Personal Hygiene

- Frequent scheduled handwashing for participants and staff
- Staff to wear non-medical masks when 2 metres of physical distancing is not possible
- Activities adapted to be non-contact with limited equipment sharing
- Increased handwashing and hand sanitizer stations

Stay home if you are sick

- Participants and staff must not attend camp if they are symptomatic or feeling unwell
- Anyone who becomes sick while at camp will be sent home.

Environmental Hygiene

- Staff have adopted a constantly cleaning mindset
- Increased frequency of deep cleaning and sanitization by staff
- Touch free initiatives implemented with enhanced surface sanitation in high touch areas
- Touch free sign in/out
- Individually assigned equipment when possible

Safe Social Interactions

- 1 leader per 8 participants
- Smaller camp sizes
- Limited social interactions
- Maintain 6ft/2M physical distance when possible
- Reminders to 'keep hands to yourself'
- Please send child with sunscreen already applied

Physical Modifications

- Designated sign in/out areas
- Separate snack and lunch locations
- Assigned washrooms
- Camp activities will take place in spaces physically distanced from those used by the public

All individuals (staff, parents and participants) that are able to wear a face mask must do so while inside the facility. While taking part in physical activities, masks are optional and if desired, sport camp leaders will direct participants to remove mask when appropriate. A mask must be worn when entering, exiting and moving around the building.
